SNOWSHOEING

Experience the unique winter landscape around Lech Zürs am Arlberg in the fresh, clear winter air. One of the great advantages of snowshoeing compared to other winter sports is that anyone with average physical condition can participate without needing any additional technical skills. You can rent the right pair of snowshoes including poles in one of the local sports stores. The large tread surface of the snowshoes prevents you from sinking too far in the powder snow and thus enables you to cover longer distances.

SNOWFLAKE-PANORAMA-TRAIL AT RÜFIKOPF

Snow is simply miraculous: billions of snow crystals merge to form flakes that float down gently like leaves and cover everything in a bright white blanket. Snow is very powerful in the Arlberg region: it shapes the people here, sets the pace and creates living conditions. Snow challenges people, it makes them fight. Snow is also an ally: it casts a spell over the landscape, makes it seem weightless and graces it with beauty. The Snowflake Panorama Trail will bring you closer to this fascinating element we call snow. And it will introduce you to people from the Arlberg who transform adverse conditions into highly emotional winter experiences. And that's no miracle, but a success story that has been seen time and again here on the Arlberg.
