LECHWELTEN CONVENTION CENTRE

The new meeting

In the heart of the village, keeping up with the times. The Lechwelten Convention Centre is located right here, in a powerful place between the river and the church. A modern building for meeting and communicating. A vibrant meeting place for conferences and presentations. For art and culture. For parties and celebrations. For people and markets. Here, there is more room for your ideas and visions. And more time to share them with the world.

Lechwelten Convention Centre

ARCHITECTURE

It all started with a vision.

“Lech was looking for a place that would entice everyone to communicate: locals and visitors, cultural and business people, poets and thinkers. The Lechwelten Convention Centre has made this vision reality.

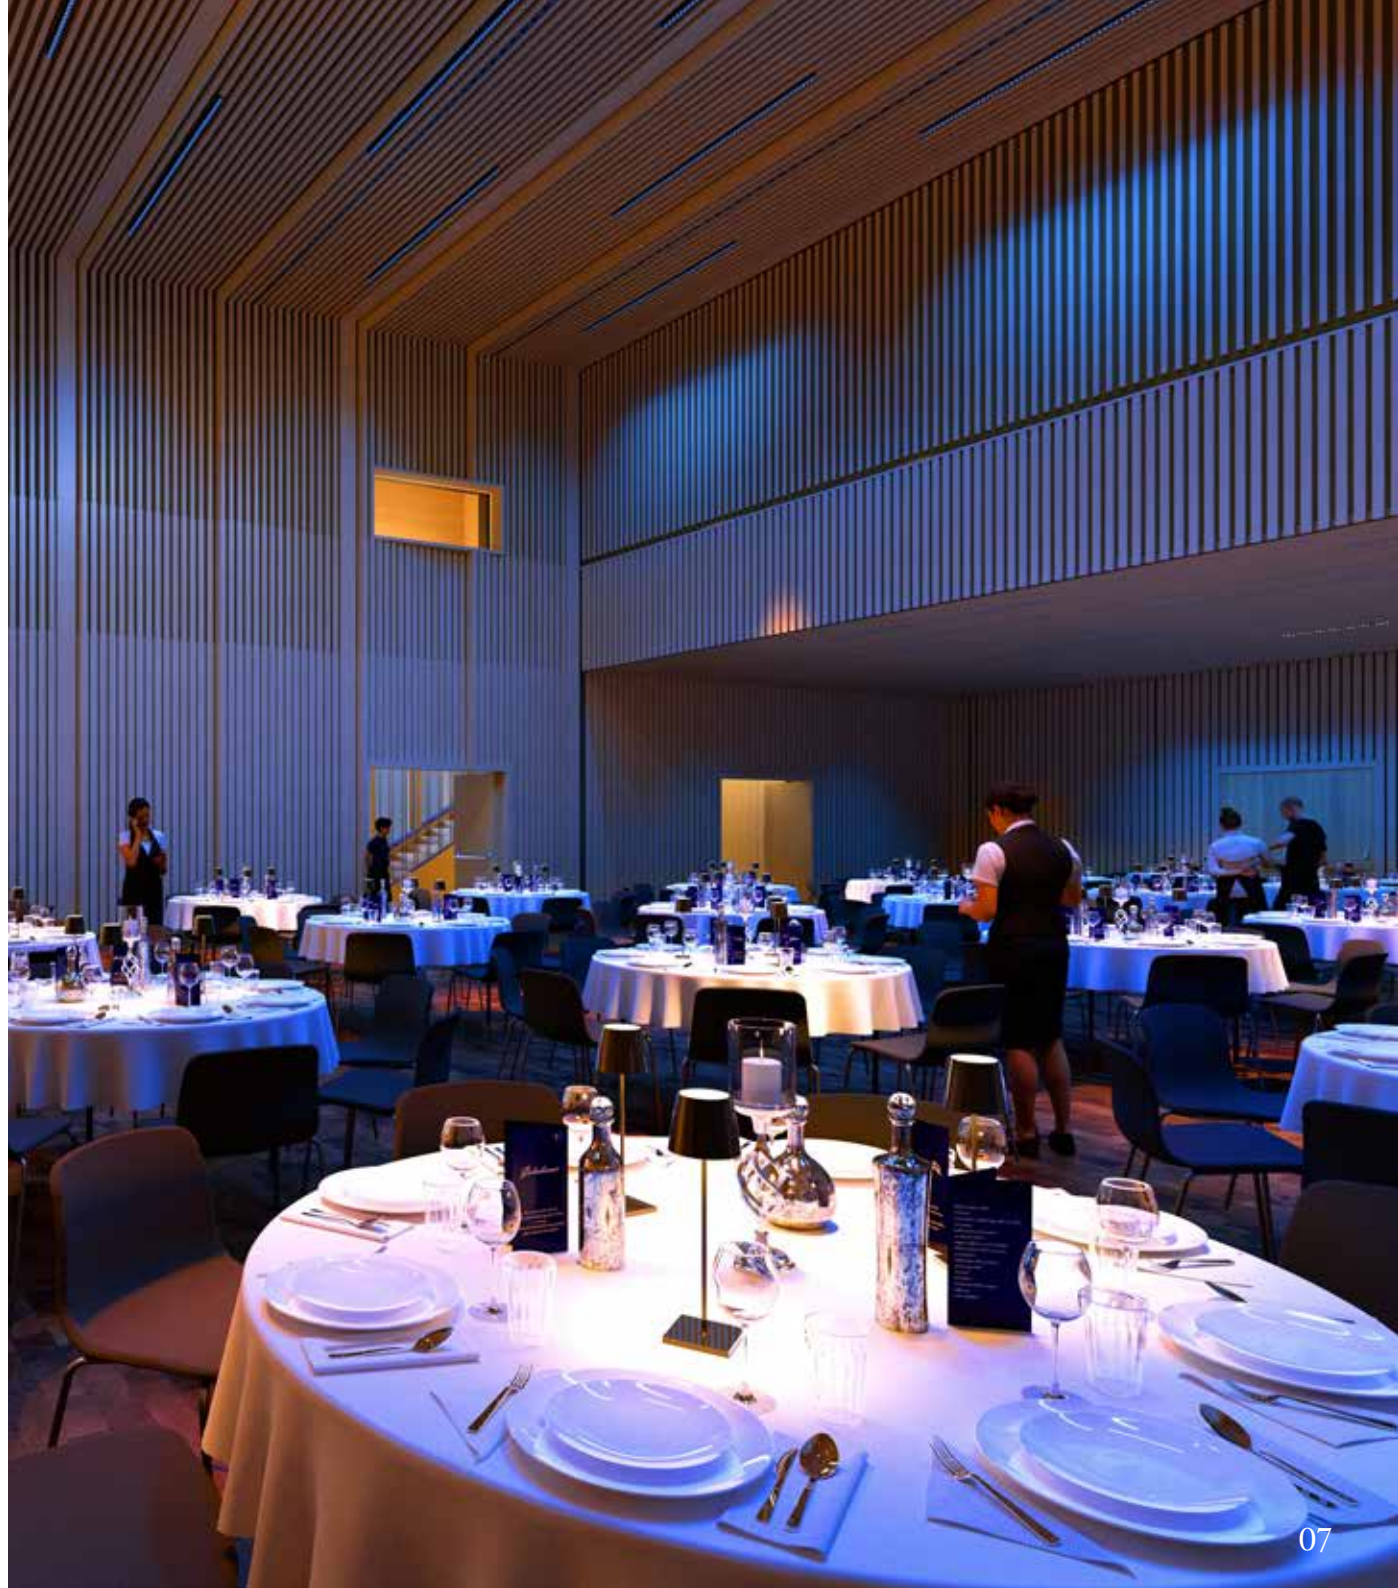

Dorfbus

Lechwelten

THE HALL

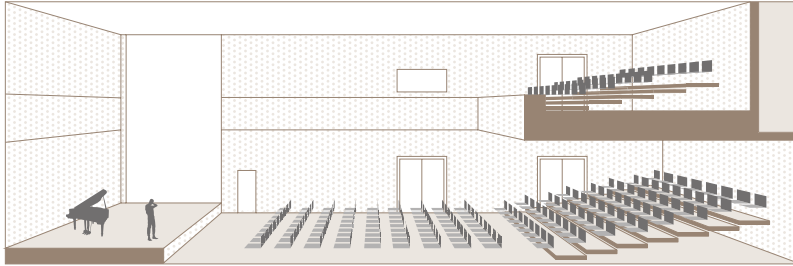

Space for flexibility.

The building's architecture is as clear and transparent as its philosophy: flexible rooms for conferences, concerts and events of all kinds are found behind the glass and wood façade. The centrepiece is the multifunctional event hall for up to 650 visitors, which can be divided into up to three smaller halls if required. Equipped with the latest technology that ticks all the boxes.

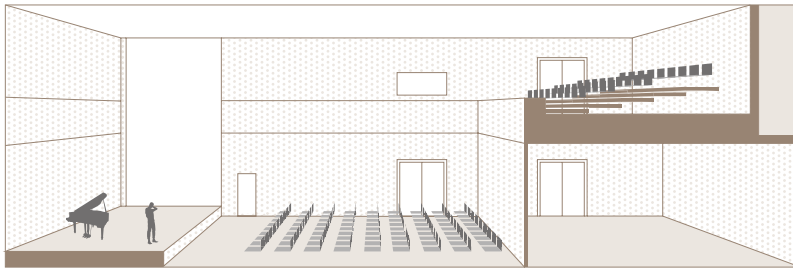

Hall variant 1 “Plenum”

for up to 650 visitors

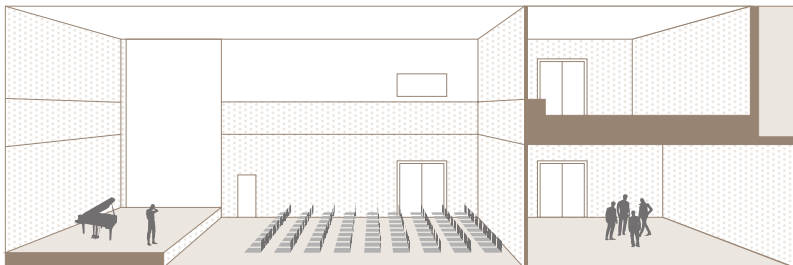

Hall variant 2 “Ground floor and gallery”

for up to 400 visitors

Hall variant 3

for up to 250 visitors

LED WALL

The Lechwelten Convention Centre will feature pioneering technology thanks to the installation of a 9.6 by 5 metre LED screen. From digital stage design to cinema screenings, the LED wall is extremely versatile. When not in use, it can be covered by a folding wall and is more or less “invisible.” At concerts the structure does not interfere with the acoustics.

ACOUSTICS

The event hall in the Lechwelten Convention Centre meets the highest acoustic standards. It is capable of functioning just as effectively as a large hall as it is when divided into two or three smaller halls. This standard is unique in Europe. For optimal soundproofing, the inner lining of the walls is slightly inclined, as are the windows. For people with hearing impairments, there will also be an inductive-loop hearing system.

FACTS

- Modern architecture
- Ecologically constructed and clad with regional wood to provide a pleasant atmosphere
- The Lechwelten Convention Centre has space for up to 650 visitors and is divisible into three rooms
- Rooftop terrace with breathtaking views

Local meets global.

A haven for guests from all over the world:

Lech am Arlberg has made a global name for itself with its authentic charm and subtle character. 1,450 metres above the ordinary, you will find more space and more time – for very personal moments of joy shared with like-minded people. No matter where you come from, Lech is easy to find and easy to reach. The hardest part is saying goodbye.

TRAVELLING BY CAR

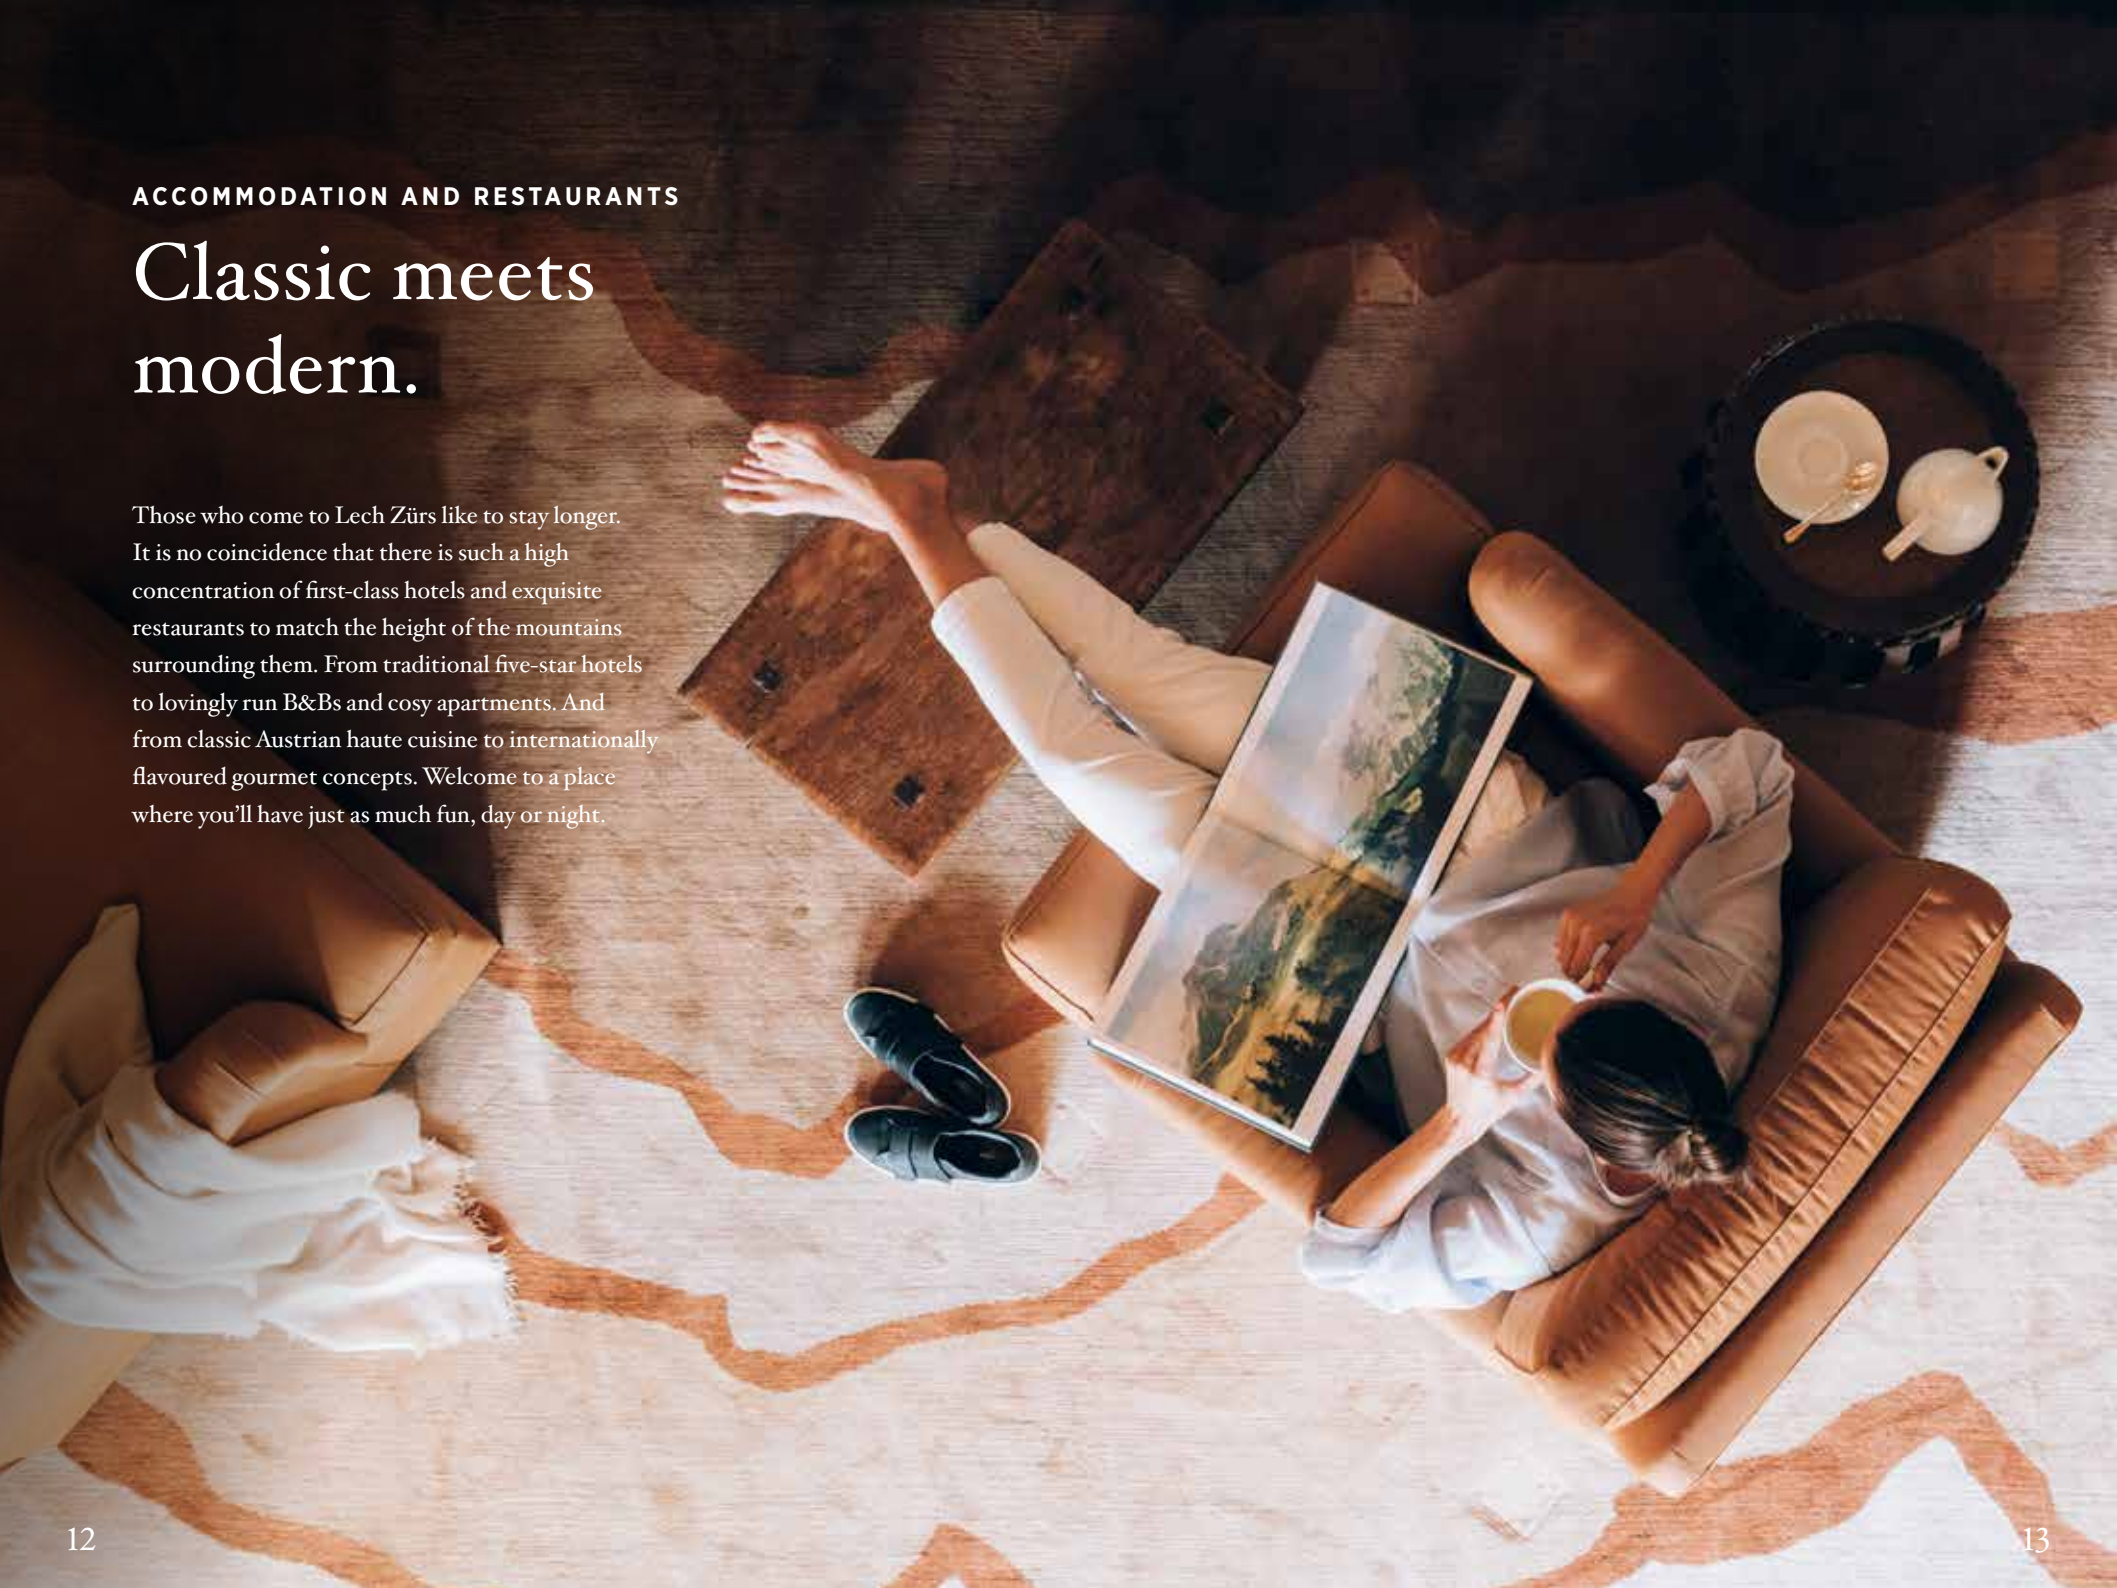

- Via Lindau–Bludenz–Langen–Flexenpass–Zürs–Lech
- Via Innsbruck–St. Anton–Arlbergpass–Flexenpass–Zürs–Lech

ACCOMMODATION AND RESTAURANTS

Classic meets modern.

Those who come to Lech Zürs like to stay longer. It is no coincidence that there is such a high concentration of first-class hotels and exquisite restaurants to match the height of the mountains surrounding them. From traditional five-star hotels to lovingly run B&Bs and cosy apartments. And from classic Austrian haute cuisine to internationally flavoured gourmet concepts. Welcome to a place where you'll have just as much fun, day or night.

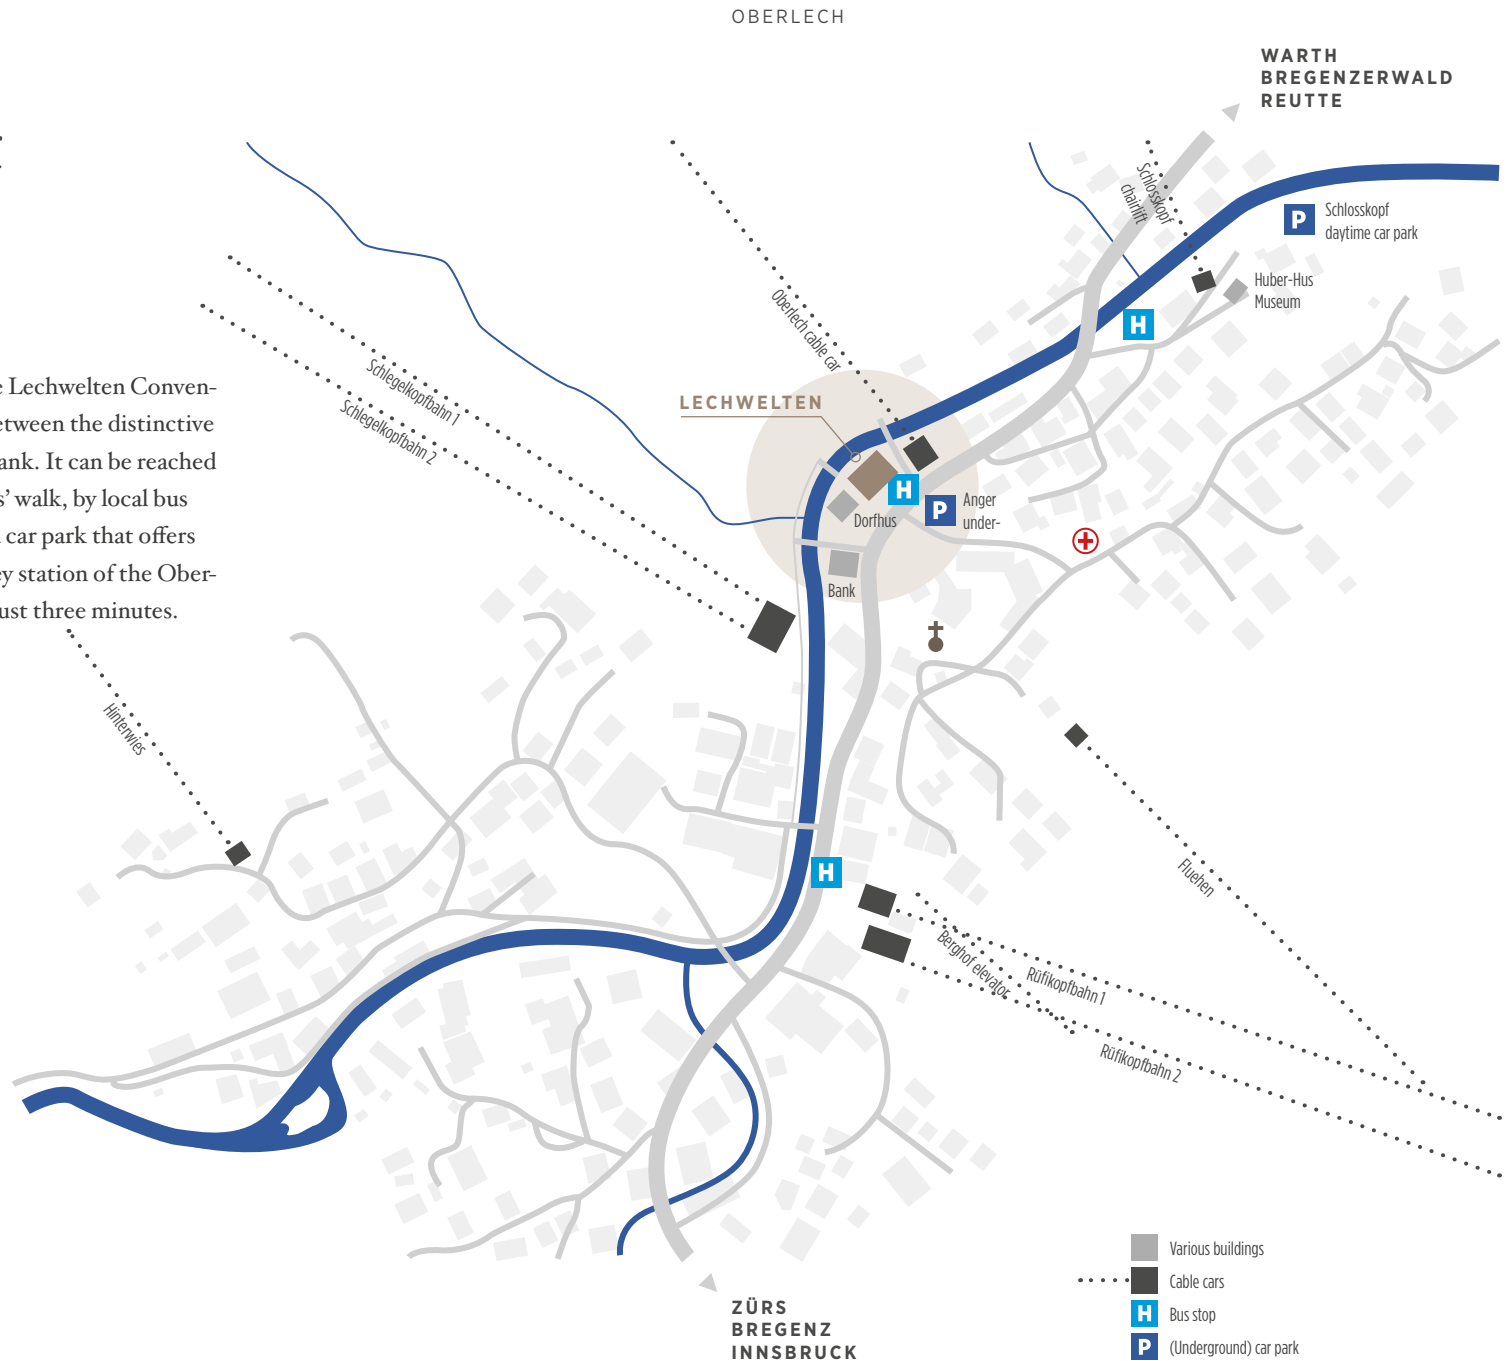

LOCATION

In the midst of it all.

This is where the village's heart beats. The Lechwelten Convention Centre is in the heart of the village between the distinctive church hill and the newly designed river bank. It can be reached from every direction in only a few minutes' walk, by local bus or you could park in the new underground car park that offers direct access. From the neighbouring valley station of the Oberlech cable car, you can reach Oberlech in just three minutes.

ZUG

FOUR SEASONS

Lech Zürs is always in season.

In spring, summer and autumn, the mountains change: a lush green, picturesque and colourful world invites you on a voyage of discovery between high mountains and high culture. Between adventure and haute cuisine. Between fascination and inspiration. And soon between conferences and recreation. Between impulses and opinions. The Lechwelten Convention Centre makes it possible to easily combine work and holiday. Lech Zürs is both a place of energy and a destination of longing. It's as though it's been made for exchanging ideas and opinions.

The Lechwelten Convention Centre is the right place where thoughts meet and energies are concentrated.

The Arlberg is considered the cradle of Alpine skiing. Lech Zürs has always been located right where winter sports, art and culture meet. During the colder months, the whole world meets here in Austria's largest connected ski area. 305 kilometres of perfectly groomed ski runs and 200 kilometres of high-Alpine powder runs.

RECREATIONAL

activities.
